Climador Coil Cleaner

Climador is an environmentally friendly, food grade liquid cleaning agent. This innovative solution cleans and protects all evaporator and condenser coils by attacking dirt deposits and not equipment.

*Progress
is Greener*

Climador is a helpful addition to any busy workshop as it is ready to use with no mixing necessary and provides results in minutes. The non corrosive formula easily removes grease and mould resulting in improved hygiene for food transportation. Clean coils ensure increased cooling or heating capacity and therefore energy cost reduction in both internal and external applications. The formula leaves no residue and is biodegradable protecting both coils and the environment.

Available in one litre six packs or 10 litre containers ready for workshop usage.

Key Features

- Spray and Go! - Less than 5 minutes to apply
- 15 minutes to see results
- Prevents development of bacteria and mould
- Environmentally friendly formula
- Odourless - non toxic - non corrosive
- No residue - biodegradable
- Safe to handle - No mixing of chemicals required

 **THERMO KING**

Keeping you on the move

Providing equipment and services to manage controlled-temperature environments for food and other perishables, our Climate Control Technologies sector encompasses both transport and stationary refrigeration solutions. Our product brands include Thermo King[®], a world leader in transport temperature control systems, and Hussmann[®] - Koxka[®] manufacturer of refrigeration and food merchandising equipment.
